## What is NLP?

Neuro-Linguistic Programming (NLP) is the most practical, results oriented technology of detecting, understanding and getting in control of our conscious and unconscious thinking. We will show you how to use this with self and others — individually and as a coach!

NLP is the study of excellence that focuses at identifying communication and behaviour to produce a state of excellence. Within this training, you will learn how to use techniques with yourself and others.

Understanding NLP can help you achieve excellence in your life, no matter what you desire. NLP is a proven and potent method for achieving what you want in your life. It requires a disciplined approach to communication, and to personal and professional development. NLP also explores the connection between neurological processes (“neuro”), language (“linguistic”) and experiential behaviours (“programming”).

## DAY TWO

The power of stories! Stories are a method of communication to those around us, and within ourselves. These stories can be powerful and guide us in our direction in life. Often these stories influence our motivations and the actions we take. During this training day, you will learn the power of your stories, and the stories we hear from others, and gain the power, insight, and skills to change your stories to those of success.

Anchoring is a process where we make strong connections with stimulus in our environment, and you will learn to control your feelings, and state of mind along with other powerful strategies.

In amongst all this, you will learn also Submodalities which is the coding in which we interpret the world. Once you know about it, you have power to change it.

- ❖ Learn the power of metaphors (stories) and how to utilise them. Empower others with your words
- ❖ Understand how our brains interpret and process the world, and then take control of it.
- ❖ Rid yourself of unwanted behaviours (like eating the wrong foods) using the techniques involving Submodalities
- ❖ Learn to shift limiting beliefs through a structured tool using Submodalities
- ❖ Un-helpful emotional response? Learn to change them using a Swish Pattern
- ❖ Discover and master your emotional states through the power of Anchoring
- ❖ Understand the process of triggers and learn to set up or remove triggers in your environment which lead you in specific directions
- ❖ Create powerful Anchors of internal states and utilise them for success
- ❖ Get rid of procrastination. Just imagine how you will achieve those goals!

## DAY THREE

Why do people do what they do? Have you ever wondered that question too? Strategies is the answer. Strategies are the patterns in which form all actions. They are the mental sequence of internal processes which produce a specific outcome or behaviour. Once you learn how to decipher a pattern, you will then learn the power of changing them.

Continuing your learning of Anchors, you will learn a process of chaining them to move from an undesired state to a more desired one. For example, completely diminishing any state of procrastination with an instant transition to motivation.

Deluging further into communication, lets learn the art of reframing, which is a powerful tool used to reduce resistance, empower and in business, to handle objections.

And rounding out an awesome day, we want to resolve all inner conflicts to allow you to be focused and congruent in life.

- ❖ Learn the step-by-step process for how to elicit, design, and install strategies to consistently achieve any result you desire
- ❖ Learn to elicit strategies in a vast range of areas including motivation, procrastination, happiness, stress, public speaking, communication, sales, health, wealth, fun, love and sex, to name a few. What if you could discover how to identify and change strategies in yourself and others... and utilise this to your life and business? We will show you how to dissolve any disempowering strategies as the hurdles to your success.
- ❖ Master the Art of Reframing! To be able to communicate with purpose, to handle objections, or shift mindset. How do we influence people beyond the conscious level by changing the way they represent words in their mind? Today we will teach you how to be the most flexible communicator and create changes in the minds of your clients in therapy, Business or in daily life!
- ❖ Inner conflicts can prevent us from taking consistent action towards our goals. With diving into this further, we will discover how to dissolve parts at the unconscious level using what is called a "Parts Integration". This is an extremely powerful technique for people who are in "two minds". E.g. "people that say they are torn between two aspects". A part always has a certain behaviour that it produces and it blocks up the flow of neural network information. Removal of that blockage frees the flow towards our success.

## DAY FOUR

Hold on to your hats, today we're going for a ride!

Mindfulness is a process of being mentally present at any given moment in time. Which robs people from this gift. What leads someone to mentally reside in their past or worry about their future? Our unconscious mind has a need for completion, and so will often provide these instances to our conscious mind for resolution. Sometimes we are not sure how to resolve them. This is where Time Line Therapy® comes into play. You will learn not only how to let negative emotions release in your life, you will also learn how to assist others to release theirs too, whether in business or therapy.

Now that you've conquered your fears, cleared those anxieties and removed any negative emotions from the past, it is time to destroy those limiting beliefs and limiting decisions that stop us from living the life we deserve.

- ❖ Discover the power of Time Line Therapy® by learning it, practicing it. And experiencing it for yourself. This tool is scientifically proven to remove all these blockages from your nervous system!
- ❖ REMOVE all your fears, anxieties, and negative emotions that are holding you back from your desired future path. Your nervous system stores negative emotions from your past and blocks energy flow and inhibits the body's own self healing mechanisms. We have seen clients' physical bodies transform using this technique!
- ❖ Finally, its time to remove all limiting beliefs that are holding you back E.g. I am not good enough, or I don't deserve, or that I can't create the wealth that I want
- ❖ Also discover how to remove phobias in 10 minutes or less
- ❖ And rid yourself of anxiety forever
